## GUIDELINES

*The staff will adhere to the following guidelines to create a balanced, uniform, accurate and classic senior section:*

### \* Color or B/W

\* Only head and shoulder poses - no full body. Ensure that the student's entire head is in photo. Do not cut off.

\* **NO PROPS:** hats, pets, cars, musical instruments, flowers, rock walls, sports equipment, furniture, other people in picture, etc...

\* Avoid strapless shirts, spaghetti straps, and wording/text on attire.

\* Nothing covering the face. Shots with shadows on individuals' faces will not be accepted.

\* No poses with heads resting on hands. No hands, knees, etc... showing in any pose. Student must be looking at the camera.

\* Size of the head matters. This is a head shot that extends to the upper chest. Do not submit a "tight shot" in which the head appears massive.

### \* BACKGROUNDS \*

Students may pick the background of their choice. These include traditional solid or muddle-colored backgrounds and more modern backgrounds such as wooden walls or metal doors.

We ask that students avoid "busy" backgrounds with many colors and shapes simply because the focus will be taken off the senior's face. It is a chance for students to express their personality, but keep it neutral to have the attention focused on the senior and not something in the background. Have photographer blur the background if necessary.
